Dear Bill,

Please find enclosed a CD of the new Art Sculpture Building photographs and a PDF copy of the information submitted for the Metal Construction News (MCN) Competition, entering the newly completed structure into the National Competition.

HHSDR submitted the project to the design competition on behalf of Slippery Rock University and Declan Construction. The overall project was completed on time and on budget. This was due to Declan Construction's approach to the project in a conscientious manner with attention to schedule, construction and detail.

It is hoped that HHSDR's design and Declan's Construction's hard work will lead to a national project design award. Thank you, on behalf of SRU and HHSDR Architects/Engineers, for a job well done.

Sincerely,

HHSDR Architects/Engineers

Robert A. Englebaugh
