I am the Executive Director of Turning Point Counseling Services in Youngstown Ohio and recently had a building addition completed to house clients from the community who are in crisis. The General Contractor was Declan Construction. I would recommend Declan to anyone looking for a professional contractor. Bill O'Brien, site manager, is very knowledgeable with over 15 years experience and his construction workers are highly skilled. The project here at Turning Point was completed ahead of the projected completion date and I couldn't be happier with the workmanship. I would consider Declan for any future projects.
